SUMMARY

Technical Team Lead and Senior Laravel Developer with 4+ years of experience in building scalable web applications, leading development teams, and delivering fintech, e-commerce, and ERP solutions using Laravel, PHP, MySQL, REST APIs, and AWS.

WORK EXPERIENCE

Sr. Laravel Developer & Technical Team Lead – DIGIGOLD

Nov 2023 – Present

- Leading end-to-end project execution from requirement analysis to deployment and production support.
- Managing the development team, task allocation, sprint planning, code reviews, and timely project delivery.
- Developing and maintaining scalable backend applications using Laravel and PHP.
- Designing and implementing business logic aligned with product and business requirements.
- Managing third-party API integrations, vendor coordination, and technical onboarding.
- Collaborating with stakeholders to define product features and technical solutions.
- Ensuring application performance, security, scalability, and code quality.
- Managing AWS deployment, server configurations, and production releases.

Jr. Laravel Developer – JS Techno Solutions Pvt. Ltd.

Sept 2022 – Oct 2023

- Developed and maintained ERP and business applications using Laravel and PHP.
- Built RESTful APIs and integrated third-party services for business operations.
- Designed and optimized MySQL databases and backend modules.
- Collaborated with cross-functional teams to deliver scalable and maintainable solutions.
- Improved application performance through query optimization and code enhancements.
- Participated in testing, debugging, deployment, and production support.

Laravel Developer Intern – Urvam Technologies

May 2022 – Sept 2022

- Developed backend modules for a School Management System using Laravel.
- Assisted in database design, CRUD operations, and API development.
- Fixed bugs, implemented new features, and optimized existing functionalities.
- Collaborated with senior developers while following coding standards and best practices.
- Gained hands-on experience in Git, MySQL, Laravel, and Agile development workflows.
